SUMMARY

Innovative Web Developer with a Certificate in Full-Stack Web Development from Georgia Institute of Technology. Strengths in producing high-quality applications, working in fast-paced environments, and working in diverse multidisciplinary teams. Passionate about approaching programming challenges from different angles and collaborating with others to create meaningful web applications. Excited to develop responsive websites and provide clients with the highest satisfaction. Positioned to provide unique perspectives on how end users interact with websites and software platforms by leveraging background in industrial/organizational psychology, engineering psychology, and ergonomics.
